

OUR FIRSTS

- 2017: We inaugurated a fully operational hydrogen energy production and transportation ecosystem, complete with Costa Rica's 1st Hydrogen Fuel Cell (HFC) bus.
- 2018: We, along with Purdy Motor, supported the introduction of the first fuel cell sedans (Toyota Mirai) in Latin America.
- 2021: We upgraded our fully operational green hydrogen ecosystem to include a second dispenser with fast refueling capabilities. CEO, Dr. Franklin Chang Diaz completes the first long range HFC drive in LATAM, traveling 430km on one tank filled at by second dispenser.
